

EAGLE ENGINEERING

FASTENERS

ROOFING AND CLADDING SCREW

Applications:

1. Commonly used to fasten metal, plastic, and fibreglass roofing sheets to metal or wood structures
2. Retrofit Framing
3. Residential steel Frame Construction.

Features:

1. Unique point to thread design extrudes the metal preventing strip out
2. Point to thread design maximize pull-out performance
3. Easy to install, time saving, minimizes labor.

Material: Carbon Steel, SS

Finish: Ruspert, Zinc

CSK HEAD SCREW

Applications:

1. Best Choice for fastening on windows and door.
2. Frames purpose.
3. Using in flat surface required.
4. Using in pre-drilled hole for fitting

Features:

1. Precise cutting edges to improve drill performance.
2. Easy to install, time saving, Minimizes labor

Material: Carbon Steel, SS

Finish: Ruspert, Zinc

PAN HEAD SCREW

Applications:

1. Brackets
2. HVAC, Electrical trim accessories to steel framing
3. Residential steel frame construction

Features:

1. Precise cutting edges to improve drill performance.
2. Easy to install, time saving, minimizes labor.

Material: Carbon Steel, SS

Finish: Ruspert, Zinc

BUTTON HEAD SCREW

Applications:

1. Residential steel frame Construction.
2. For using in object like Polycarbonate sheet, Shadow cover,
3. Conduit clips to steel.

Features:

1. Precise cutting edges to improve drill performance.
2. Easy to install, time saving, minimizes labor.

Material: Carbon Steel, SS

Finish: Ruspert, Zinc

FRAME FIXING SCREW

Applications:

1. Preassembled through anchor
2. High Performance
3. High resistance to corrosion

Features:

1. During application the remains in The desired position due to the location groove inside the plug
2. Designed to prevent internal damage to the plug when the screw is applied
3. Wide screw diameter and thicker Thread enhances the performance

WEDGE ANCHOR

Applications:

Wedge anchors are used for many different concrete applications, such as the Following, Escalator, Elevator, Racking, Electric Pipe, Shelving, Roof Flashing, Windows, Light Post, Steps, Railing

Features:

1. Sturdiness
2. Non-corrosive
3. High performance
4. Not required a set anchor
5. It is hammered into the drilled hole up to the anchors

Material: Carbon Steel, SS

Finish: Zinc

DRYWALL SCREW

Applications:

1. Assemble with steel and gypsum board
2. Fixed and assemble furniture
3. Plywood fascial to steel frames

Features:

1. Bugle Head design and seats flush in steel
2. Phosphate coating, long time preserve
3. Sharp point, fast drilling

Material: Carbon Steel

Finish: Black Phosphate

ACCESSORIES

Socket/ Star Bit

Mastic Butyl Tape

Silicon Sealent

Mesh Roll

Cutting Wheel
